TRACK DAY AT CASTLE COMBE

Thursday 10th May 2007

We have reduced the maximum number of entries this year from 80 to 60 to ensure plenty of track time for everyone. 12 cars to use the track in each session subject to meeting the 100dba noise limit. Cars unable to meet 100dba but are under 105dba will be allowed on the circuit in groups of six. This is not to encourage noisy cars but to accommodate those owners who, despite their efforts, still can not silence their engines to within 100dba.

If in doubt, contact Castle Combe Circuit (tel. 01249 782417) ,prior to the event, and arrange for them to test your vehicle in advance.

Entries will be accepted strictly in order of submission so please send as soon as possible.

All vehicles must pass a static noise test of maximum 105 dba at 4500 rpm

The Tavern Clubhouse will be open for refreshments. Crash Helmets must be worn and arms and legs covered. The track will open at 9am and close at 5pm with a 1 hour lunch break. Please send completed entry form and payment of £175 to: North Newnton Garage, North Newnton, Pewsey, Wilts. SN9 6JX. Cheques payable to North Newnton Garage
